Snowate

OUR STRENGTHS

Quality Assurance

We cooperate with suppliers and manufacturers to provide our customers with high quality water treatment facilities and components.

Full Range of Products

We are capable of purchasing and supplying a full range of water treatment facilities involving all aspects of water treatment including softening, filtration, reverse osmosis, etc. If you give us a purchase list, large or small, you will always get a good price and considerate services.

Lower Costs & Higher Profits

We have a professional team to help you select cost-effective products with a 30% increase in procurement efficiency, and a significant growth in economic benefits.

Logistics Service

We integrate the logistics supply chain, eliminating tedious logistics communication matters and saving communication costs.

After-Sales Service

We have established a complete set of after-sales service system to ensure your after-sales complaints are responded to and solved quickly.

OUR CULTURE

Orientation

One-stop sourcing supplier for water treatment industry.

Slogan

Your expert in sourcing water treatment facilities & accessories.

Vision

To be a world-leading integrated service provider in the water treatment industry.

Mission

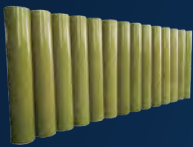

Provide a complete set of professional water treatment solutions, purify the water world and promote the sustainable development of the world.

Values

- Integrity, responsibility and win-win outcomes
- Integrity. To be honest and trustworthy is the foundation of winning our customers' confidence and trust.
- Responsibility. Actively shoulder our responsibility to our employees, customers and the whole society.
- Win-win outcomes. Make progress with all our partners, thereby promoting the sustainable development of the world.

At Snowate, our procurement covers a comprehensive range of water treatment facilities and components, mainly including FRP water tanks, membrane housings, membrane elements, cartridges, security filters, metering pumps, etc. These products are widely used in drinking water, commercial water, municipal, medical, food and other fields.
