

# Viano Company Profile

**SINCERITY QUALITY**

Professional OEM/ODM Supplier Of Water Purifying Systems

NEW FASHION HOME

Name: Anhui Viano Water Purification Technology CO., Ltd.

Located In Hefei, Anhui Province, China

Established: In 2007.

Business: OEM/ODM Manufacturer & Exporter Of All Kinds Of Water Purifiers.

Infrastructure: 1. 36000m<sup>2</sup> production line Factory.

2. Moulding Workshop.
3. Metal Forming Workshop.
4. Plastic Injection Molding Machining Workshop.
5. 6 Assembly Lines.
6. R&D Center.
7. Performance Testing Room.
8. Showroom.

Supplying Capacity: Annually Up To 700,000 pieces

Certificated: Decades Patents; SO9001, ISO14001, QHSAS18001, CCC, CE, CB,ROHS, SASO, etc.

All Products Are Insured By PICC

# Enterprise culture

- **Mission:** Become Professional OEM/ODM Supplier
- **VALUE:** Innovation; Quality; High Performance-price Ratio
- **VISION:** From Cooperation To Win-Win

# Our development history

- 2016 We have our own import& export right.
- 2015 May Start Office automation & ERP programs
- April Certificated by QHSAS 18001
- March Factory Building Finishd.
- 2014 October 10,000 square meters new factory building project starts
- Agust Donate Water purified products to Ludian earthquack zone.
- July China drinking water specialist vist Viano
- March 5,000sqaure meters waterhouse buidling finished
- 2013 June Established Wide& Long-term Business relationship with domestic famous companies ,and annual supplying is up to 170,000 pieces.
- May the second factory starts productions

# Our development history

- 2011 March First factory starts productions and annual is up to 100,000 pieces.
- 2010 December certified CCC
- August OEM division was established .
- 2007 Viano is founded .

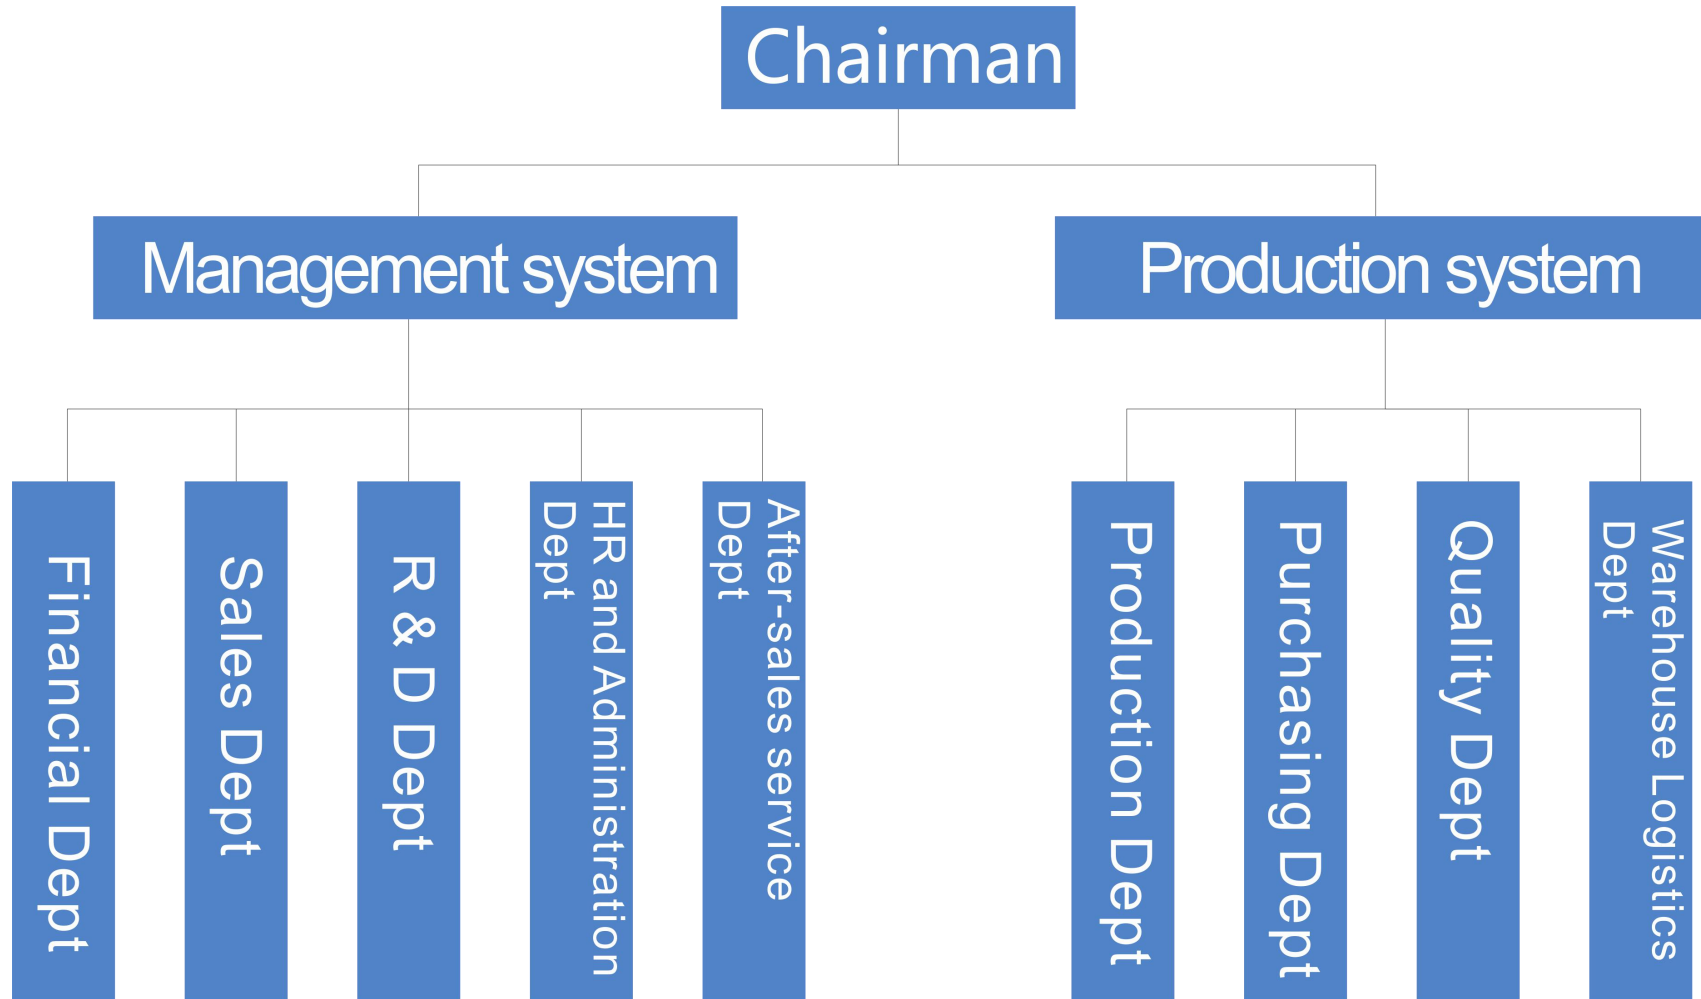

# Our market

- Our mainly market is USA ,India ,Southeast ,Korea ,Africa,Middle East and the most of Countries of one belt,one road .
- Till now we have over 500 customers in the world
- Every day we can produce over 400 sets water purifiers ,every month ,we will export 1000 sets countertop to USA market.
- Every month ,we will sell over 2000 sets ice,hot water purifiers.

# Our customers' visting

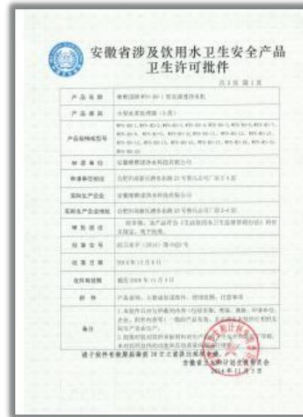

# Construction

# ▶ company qualification certificate

Keep improving and practice craftsman spirit. Viano constantly improves and enhances the internal qualification management to promote the comprehensive and healthy development of the enterprise.

# ▶ company patents wall

We should make great efforts to develop and innovate. In terms of technology patents, Viano always regards the enhancement of independent innovation ability as the key to the development of the enterprise, and constantly improves the core competitiveness of the company

# Product series

- UF Filter
- Ro Cabinet Water Purifier
- Ro heating series
- Undersink RO water Purifier(included steel bracket series)
- RO Cabinet big flow
- RO built-in cabinet
- RO countertop series
- Accseeories

# Product series-ultra filter

WYN-UF702

- ✘ Tempered glass panel, can be designed with different decorative effects
- ✘ Ultra-thin body of machine and its design,
- ✘ One-piece UF membrane design, easy to use and maintain
- ✘ Product size (MM): 355\*100\*395

# Product series-ultra filter

WYN-UF402

plastic panel, can design different decorative effects

✘ Ultra-thin body design, with transparent visual window;

✘ Integrated UF membrane design, easy to use and maintain

✘ Product size (MM): 358\*145\*350 " \*350

# Product series-ultra filter

WYN-UF909

- ※ sealed cuboid structure design, ultra-thin size
- ※ Toughened glass panel ,can fully meet the needs of personalized home design
- ※ Internal vertical filter element structure, better water purification effect
- ※ Product size (MM): 330\*190\*440

# Product series-ultra filter

WYN-RO911

- ✘ Closed box structure design, ultra-thin size
- ✘ Toughened glass panel can fully meet the needs of personalized home design
- ✘ Hidden water inlet and outlet design on the back,
- ✘ Product size (MM): 355\*148\*395

# Product series-ultra filter

## WYN-UF51

- ✘ The upper cover is adopted imported high-precision ABS injection molding
- ✘ Super large filter design, the water purification flow is 2-3 times than ordinary water purifiers
- ✘ No need to use electricity, manual waste water discharge, water saving and energy saving
- ✘ Five-stage filtration to ensure healthy and clean water quality and retain beneficial minerals
- ✘ Product size (MM): 360\*130\*375

# Product series-RO cabinet water purifier

WYN-RO301

Technical parameters :

Voltage : 220V~

Frequency : 50Hz

Purifying Capacity:30W

Water Pressure : 0.1-0.3MPa

Purifying Capacity : 7.8L/h

Raw Water: Civil Taping Water

Size :475x140x373mm

Cartridges : PP+UDF+PP+RO+T33

Feature :

1. 10" Standard Cartridges With Upper Turing Lid.
2. Buckled Tempered Glass Panel, More DIY Design And Style.
3. 400G Purifying Capacity; Massive Flowing Water.
4. Non-Storage Tank To Save More Space.
5. Double Testing: Air Pressure And 0.8Mpa Water Pressure To Guarantee Quality.
6. Imported Active Carbon With High Adsorption, Iodine Value More Than 1000.

# Product series-RO cabinet water purifier

WYN-RO401

Technical parameters :

Voltage : 220V~

Frequency : 50Hz

Purifying Capacity:30W

Water Pressure : 0.1-0.3MPa

Purifying Capacity : 7.8L/h

Raw Water: Civil Taping Water

Size :478x118x335mm

Cartridges : PP+UDF+PP+RO+T33

Feature :

1. Magnet-hook Design To Remain Portable
2. Super Thin Cabinet; Visible Front.
3. Separation Between Water & Electricity; Remain Safer.
4. Tempered-glass Panel, Stay Up-to-date Style.
5. Double Testing: Air Pressure And 0.8Mpa Water Pressure To Guarantee Quality
6. Imported Active Carbon With High Adsorption, Iodine Value More Than 1000

# Product series-RO cabinet water purifier

WYN-RO501

Technical parameters :

Voltage: 220V~

Frequency: 50Hz

Purifying Capacity:30W

Water Pressure : 0.1-0.3MPa

Purifying Capacity : 7.8L/h

Raw Water: Civil Taping Water

Size : 315x145x425mm

Cartridges : PP+UDF+PP+RO+T33

Feature :

1. Magnet-hook Design For Convenience To Maintenance.
2. ABS Plastic Panel+AS Visible Panel
3. Super Thin Cabinet
4. Built-in Controlling Operation Panel With Displaying Lifetime Of Cartridges.
5. Double Testing: Air Pressure And 0.8Mpa Water Pressure To Guarantee Quality
6. Imported Active Carbon With High Adsorption, Iodine Value More Than 1000

# Product series-RO cabinet water purifier

WYN-RO505

- ※50-500G big flow reverse osmosis design;
- ※Toughened glass panel design, is more high-end, fashionable and elegant;
- ※The external 10-cun pretreatment filter element is more user-friendly for maintenance and replacement
- ※Intelligent integrated computer board control, real-time reminder of running status;
- ※Beautiful design, can be installed on the wall or desktop;
- ※ Product size (MM): 470\*140\*370

# Product series-RO cabinet water purifier

WYN-RO601

Technical parameters :

Voltage: 220V~

Frequency : 50Hz

Purifying Capacity:24W-40W

Water Pressure : 0.1-0.4MPa

Purifying Capacity : 7.8L/h - 15.6L/h

Raw Water: Civil Taping Water

Size :490x165x395mm

Cartridges : PP+UDF+PP+RO+T33

Features :

1. 10" Standard Cartridges.
2. 5 Stages Cartridges With Lids
3. Tempered-glass Panel; Stay Up-to-date Style.
4. Separation Between Water & Electricity; Remain Safer.

# Product series-RO cabinet water purifier

WYN-RO602

Technical parameters :

Voltage : 220V~

Frequency : 50Hz

Purifying Capacity :24W-75W

Water Pressure : 0.1-0.3MPa

Purifying Capacity : 7.8L/h - 63L/h

Raw Water: Civil Taping Water

Size :470x140x370mm

Cartridges : PP+UDF+PP+RO+T33

Features :

1. 10" Standard Cartridges.
2. Front Side Curved.
3. Visible Front.
4. Separation Between Water & Electricity; Remain Safer.

# Product series-RO cabinet water purifier

WYN-RO603

Technical parameters :

Voltage: 220V~

Frequency : 50Hz

Purifying Capacity:24W-40W

Water Pressure : 0.1-0.4MPa

Purifying Capacity : 7.8L/h - 15.6L/h

Raw Water: Civil Taping Water

Size :495x145x388mm

Cartridges : PP+UDF+RO+CTO

Features :

1. 10" Standard Cartridges.
2. 4 Stages Cartridges With Lids
3. Tempered-glass Panel; Stay Up-to-date Style.
4. Separation Between Water & Electricity; Remain Safer.

# Product series-RO heating series

## WYN-RO-6-R

One set is equal to six sets, integrating reverse osmosis filtration, ice water and hot water ; fully new buckle + magnetic buckle panel, backside detachable maintenance window, convenient maintenance ;

Built- in 6L super large volume water purification tank ,to meet demanding of super large water ;

External five rating filter element makes ,maintenance and replacement more humanized ; Double float switch, low water level to prevent dry burning without water; high water level to prevent overflow;;

touch -controlling one button to start heating and inlet water control, highlighting human-computer interaction experience ;

※Beautiful design, can be wall mounted, desktop installation and use ;

We have ultra membrane and reverse osmosis membrane .

※ dimension ( mm ) : 495\*200\*388

# Product series-RO heating series

## WYN-RO-5-R

- ✘ Small machine with great function, integrating reverse osmosis filtration and heating drinking water;
- ✘ fully new buckle + magnetic buckle type panel, detachable repair visional window on the back, convenient for maintenance;
- ✘ Built-in 6L super large volume water purification tank to meet the super large water demand;
- ✘ The external 10 cun first three-stage pretreatment filter element makes maintenance and replacement more user-friendly;
- ✘ Double float switch, low water level prevents dry burning without water; high water level prevents overflow
- ✘ touch controlling type One-touch start heating, high-end push-type faucet;
- ✘ Beautiful design, can be installed on the wall or desktop;
- ✘ Product size (mm): 490\*170\*410

# Product series-RO heating series

WYN-RO905

- ☆ Integrate filtration, heating and health pots
- ☆ An external independent heating kettle ,prevents thousands of boiling water,
- ☆ Intelligent control, simple working status display, clear and easy to understand
- ☆ Suitable for multi-channel and diversified sales models
- ☆ Top-drawing integrated filter element, built-in food-grade water tank

# Product series-undersink water purifier

WYN-RO711

※ integrated water circuit panel designing ,  
eliminate leakage hidden trouble and risk

※400—600GLarge flux outputing water, to meet  
users'

request of instantaneous demanding water

※ healed computer panel designing , with the  
function of indication the life of filter core

※super large PC transparent panel, super large  
touch-controlling type operation panel, more user-  
friendly

※Innovative filter bottle with unique style, high  
resistant pressure

※ dimension ( mm ) : 383\*209\*477

# Product series-undersink water purifier

WYN-RO511

✘ One body integrated waterway board design, avoiding leakage hidden trouble and risk

✘healed type computer panel designing , with the indicated function of filter core life

✘European design style, fashionable and elegant

✘Innovative filter bottle with unique style, high resistant pressure

✘ dimension ( mm ) : 365\*225\*450

# Product series-undersink water purifier

WYN-RO512

One-piece integrated waterway board design, avoids water leakage hazards and risks

Hidden computer version design, with filter element life reminding function

Touch control operation panel, more user-friendly

Unique and innovative filter bottle, high pressure resistance

Super large PC transparent panel, super large screen

Product size (mm): 365\*225\*450

# Product series-undersink water purifier

WYN-RO513

- ✘ One body integrated waterway board design, avoiding leakage hidden trouble and risk
- ✘ European design style, fashionable and elegant
- ✘ High transparent light curved surface AS decorative board, highlighting product characteristics
- ✘ Hidden meter LED intelligent integrated computer version control system, the life of the filter element expires
- ✘ touch-controlling operation panel ,more humanrization
- ✘ dimension ( mm ) : 365\*205\*470

# Product series-undersink water purifier

- WYN-RO515
- ✘ Viano unique innovative one body integrated water circuit board designing ,avoid leaking water hidden danger and risk
- ✘Hidden meter LED intelligent integrated computer version control system, the life of the filter element expires
- ✘human and machine interactive interface , working state at a glance.
- ✘High light transmittance surface PC decorative board, fully sealed cover, highlight product characteristics
- ✘touch-controlling operation panel ,more humanrization
- ✘ dimension ( mm ) : 378\*204\*449

# Product series-undersink water purifier

- BARE MACHINE
- ※ dimension ( MM ) : 380\*220\*452
- ※570\*390\*315mm
- ※net/gross weight : 12kg / 14kg

# Product series-undersink water purifier

WYN-RO512

Technical parameters :

Voltage : 220V~

Frequency: 50Hz

Power :30W

Water Pressure : 0.1-0.3MPa

Purifying Capacity :7.8L/h

Raw Water: Civil Taping Water

Size:365x225x450mm

Cartridges : PP+UDF+PP+RO+T33

Feature :

1. Integrated Design To Avoid Potential Dangers Resulting From Water Leakage
2. Built-In Controlling Plate Displaying Cartridge Life And Smart Flushing
3. Full Screen Displaying
4. Double Testing: Air Pressure And 0.8Mpa Water Pressure To Guarantee Quality
5. Imported Active Carbon With High Adsorption, Iodine Value More Than 1000

# Product series-RO cabinet big flow

WYN-RO415

- ※400G super large water output, massive pure water, rest assured to enjoy;
- ※No pressure barrel, quick installation, eliminate hidden dangers, and prevent secondary pollution;
- ※instant making instant using, drink fresh running freely water to prevent water retention/stagnation;
- ※ LED intelligent integrated computer version, real-time reminding running status;
- ※ The whole machine adopts high-grade food-grade materials, professionally cares for human health;
- ※ Product size (mm): 490\*288\*410"

# Product series-RO built-in cabinet

WYN-RO604A

- ✘fully new buckle + magnetic buckle type panel, detachable repair visual window on the back, convenient for maintenance;
- ✘Built-in 6L super large volume water purification tank to meet the super large water demand;
- ✘The external five-stage filter element makes maintenance and replacement more user-friendly;
- ✘No pressure barrel, quick installation, eliminate hidden dangers, and prevent secondary pollution;
- ✘Ready to use, drink fresh running water freely to prevent water retention/stagnation;
- ✘ Product size (mm): 495\*200\*388

# Product series-RO built-in cabinet

## RO built-in cabinet

- "☆ Built-in 7L sterile water purification tank, saving time and worry;
- ☆ Side display structure design, high-end easy to identify;
- ☆ Intelligent reminder for filter replacement, safer and more worry-free;
- ☆ Built-in UV sterilization in the water tank, water quality is safer;

# Product series-RO countertop series

2018 annual series products

- ✘ Rare earth thick membrane heating technology, 3 seconds instant hot , and the water is stable;
- ✘ Separation of water and electricity, stable energy saving, safe and worry-free;
- ✘ 4 steps non-polar temperature adjustment, drink good water;
- ✘ Plug-in filter element, two simple steps, independent DIY and easy replacement of the element;
- ✘ Product size (mm): 187\*385\*406

# Product series-RO countertop series

## WYN-RO905

- ☆ Integrate filtering, heating, and health-preserving pot; ☆ An external independent heating kettle prevents thousands of boiling water,
  - ☆ Intelligent control, simple working status display, clear and easy to understand
  - ☆ Suitable for multi-channel and diversified sales mode ☆ Top-drawing integrated filter element, built-in food-grade water tank Customer model: YR1931-RO
- Applicable water source: municipal tap water  
Applicable water pressure: 0.1MPa~0.4MPa  
Applicable water temperature: 5°C ~ 38°C  
Applicable ambient temperature: 4°C ~ 40°C (indoor)  
Applicable relative humidity: ≤90% at 25°C  
Rated voltage/power: 220V~/ 1230W  
Water treatment process: PP5 +CTO + +PP1+RO+composite filter element (CTO+PP)  
Purified water flow: ≥0.19L/min  
Rated total water purification: 2100L  
Desalination rate: ≥92%  
Machine noise: ≤50db  
Type of protection against electric shock: Class I

## In-line Filter Cartridge

## In-line Filter Cartridge

In-line filter cartridge can make better filtration efficiency and convenient installation. The design of 2.5 & 2 Inch diameter and 12 & 10 Inch length appropriately lay much emphasis on two main points—various filter media to treat with different water treatment status. The filter media include: coconut shell activated ball, aluminate, activated

max water flow in: 1. G P M(3.79LPM)

In/out water port: 1/4NPT

Max inlet water temperature: 52 degree centigrade.

Max working pressure: 125psi

# Product series-accseeories

## Ultra-filter cartridge

## Ultra-Filter Cartridge

The ultra filter cartridge is made up of the fabric, and the water filtration precision is less than 0.22 micron. It can remove the particles, organic, bacteria etc, It is easy to install and operate. This cartridge can be made according to your demand. UF filter cartridge can be used in any 10' normal water filter housing. UF filter cartridge can be used in normal membrane housing.
