CHEMICALS:

SHAS's Specialty Chemical Division offers through our experts comprehensive range of environmentally friendly and cost-effective chemical treatment solutions by our products (Tuqasafe series). Our services include on-site surveys by field service engineers and chemists, who collect and analyze water samples to identify issues and recommend tailored treatment solutions.

Specialty Chemicals Include:

Reverse Osmosis and Desalination Plant

- ANTISCALANTS

- BIOCIDES

- ANTIFOAMS

- DEMULSIFIERS

- FLOCCULANTS

- REMINERALIZATION

Boiler Systems:

SCALE INHIBITOR

ORGANIC & INORGANIC

OXYGEN SCAVENGER

CORROSION INHIBITOR

ALKALINITY BUILDER

SLUDGE DISPERSANTS

Cooling Towers (Open Cooling):

CORROSION INHIBITOR

BIOCIDES

DISPERSANTS POLYMER

Chillers (Closed/Open Cooling):
